TIPA Corp

[Company Info](#) [Catalogues](#) [Contact Us](#)

TIPA® is a developer and producer of fully compostable flexible packaging solutions that break down into compost just like organic material. TIPA® works closely with businesses of all types to design and provide packaging ideal for their specific application, ranging from fresh produce and snacks to magazines and fashion apparel. TIPA® solutions are built to fit existing machinery and chain of supply systems, and operates on a global scale with compostable polymer technology that is applicable worldwide. Rolls of film are available as well as shelf-ready packaging.
